

Ministry of Social Development of the Nation

The National Ministry of Social Development works to make social inclusion and equal opportunities a reality for each of the Argentinean people. To achieve this objective, plans and implements actions that promote human development and address situations of social vulnerability. Other means like the abovementioned are the protection of the family and the strengthening of community organizations. Our tasks are displayed on four strategic pillars. 1. Argentina Works Programme, 2. Argentinean Family, 3. Argentina Organizes, 4. Creative Argentina. The Undersecretary of Social Responsibility from the Social Development Ministry is promoting participatory management projects to foster communities in the country:

- To commit to the development of their surroundings and be aware of their actions' social impact.
- To get involved in solving different situations that affect their inhabitants.
- Be aware of the origin of what each purchase and consume.
- To think in a socially responsible way that their actions have an affect on future generations.
- To act based on solidarity, social justice and equal opportunities values.
