## FUNDACION CEDDET

Experts in Knowledge Management

The CEDDET Foundation is a non-profit organization whose mission is to promote economic and social development in Latin America through digital technologies, which constitute a bridge between the two continents. We have strong expertise in managing multilateral projects for capacity building, to enhance human capital and strengthen public administrations, civil society, private sector stakeholders, and international organizations.

## 15 YEAR'S EXPERIENCE

Capacity Building for Development

Created in 2002 by the Spanish Ministry of the Economy and the World Bank, CEDDET has offered more than 1,250 trainings to circa 40,000 students, partnering with over 150 organizations.

Our technical assistance has reached civil servants, international organizations' representatives, private sector professionals, academia and members of civil society in Latin America.

We specialize in knowledge management solutions, design and delivery of trainings, online and blended learning solutions and platforms for the exchange of good practices, as means to contribute to reform processes towards the SDGs.
